A Bit of Trivia...

When Coca Cola announced the return of Coke's original formula in 1985, ABC News interrupted "General Hospital" to break the story.

That thing you use to dot your lowercase "i" is called a tittle.

The average American family spends more on taxes than on food, clothing, and shelter combined.

CAMPBELL BLOODMOBILE

The Bloodmobile will be held at the Campbell Community Center on Monday, August 7, 2017, from 8:30 A.M. to 2:00 P.M. Please call LuAnn at 402-756-8678 to schedule an appointment.

CAMPBELL CHAMBER OF COMMERCE

The Campbell Area Chamber of Commerce met July 18, 2017, with 20 members present. The meeting was opened with the flag salute followed by prayer given by Pastor Cooper. Birthdays and anniversaries were recognized for May and June due to no meeting in May. Minutes of the last meeting were read and approved and the treasurer's report was given by President Pearson due to the absence of the treasurer. Betty Meyer reported we now have 63 paid members. Bingo to be played at Road Rally was discussed. Sharon Frisbie volunteered to be in charge and several members will assist. With no further business the meeting was adjourned.

MUD DRAGS

A smaller than usual crowd, due to a very hot day, enjoyed the mud drags held on July 8, 2017. The drags were sponsored by the Campbell Volunteer Fire Dept. with the help of the Mid State Mud Racing Association. Thanks to the Campbell Volunteer Fire Dept. for their work and service to the community and to those who attended and donated to the event. Winners and numbers of trucks racing were not available.

SUN SAFETY

Your summer goal may be to look like a golden god or goddess, but you better build some safe sun habits before you suffer a nasty sunburn and wrinkly skin.

Sunscreen is an invisible cream or lotion that absorbs ultraviolet radiation.

Sunblock, like the name implies, blocks ultraviolet radiation. It's a thick cream containing zinc oxide, which is that white goop.

Both sunscreen and sunblock are labeled with an SPF, which stands for Sun Protection Factor. It ranges from 1 to 60 – the higher the number, the better the protection. Dermatologists recommend at least an SPF of 15, but the level of protection you need all depends on how much time you spend outdoors.

Remember other areas of your body: your ears, behind the knees and the top of the feet. Skin cancer can turn up anywhere, like the hairline and scalp, so massage sunscreen into your roots. Apply a lip balm with SPF 15 on your lips. Choose a pair of sunglasses that blocks all UVA and UVB rays. Exposing your eyes to the sun may result in eye damage, which can lead to vision loss!

Other tips!

1. The sun's rays are strongest between 10AM and 2PM. That doesn't mean you have to stay indoors during these hours, but try playing in the shade instead of out in the direct sunlight. If you are in the sun with no shade, apply any SPF lotion to help prevent sunburns.

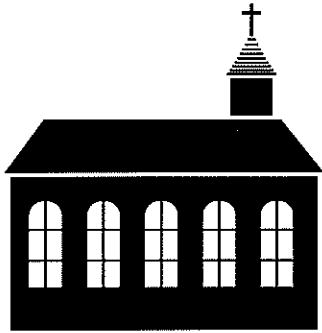

2. When you're out in the scorching sun sweating, you lose a lot of body fluids. Drink plenty of water (at least 8 glasses a day) to avoid heat-related illnesses.
